DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/12/06 has been entered.

2. Claims 1-7 and 13-25 remain pending and are being allowed.

Allowable Subject Matter

3. Claims 1-7 and 13-25 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The following claimed features are not shown or suggested by the prior art of record: The combined steps, in a method for testing a process that downloads and installs customer ordered software onto a target computer, of:

- dynamically generating on a simulation computer a file that includes instructions that when executed launch a process of downloading and installing on a target computer, customer ordered software, including a combination of files from a library that include source code responsible for downloading the customer ordered software onto the target computer;

- simulating execution of said dynamically generated file through recursive evaluation procedures and in accordance with a set of evaluation rules to determine which of the combination of files from a library would be executed during a computer manufacturing process and interpret the outcome of the execution of the dynamically generated file.

These limitations are recited in each of independent claims, 1, 5 and 23; thus, all remaining claims are also allowed.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
